

COIN CHANGER

mei®

CashFlow 8000 - o backup

Description

The CF 8000™ coin changer introduces a complete payment solution that merges coins, cashless pa
auditing, and cash management in one easy-to-use system. Building on the successful CashFlow® 7000 se
MEI coin changer offers better cash control encompassing the tools most useful to operators managing reve

Combine with an integrated cashless reader, the CashFlow Series 8000 gives more payment options with
need for additional hardware. Compatible with a variety of existing cashless peripherals, this is the ultim
changer for busy operators looking to minimizing time spent on managing their cash.

Accessories

STS Advance™

STS Advance™ provides operators with flexibility and control on machines that have SC family products integrated. It supports a full range of configuration and software update functions with user-friendly software and handheld tools so you can:

- Reconfigure new/multiple currency software and configuration data
- Monitor the performance of your Cashflow field base
- Collect unit performance and report audit data
- Support PPM and PPM Advance

STS Advance is designed to be user friendly with minimal training. You can meet your unique support needs quickly and easily.
